## Introduction

Henrik Becker is an experienced .Net developer and solution architect dedicated to delivering quality software practicing Agile Processes, Test Driven Development, applying SOLID principles and a healthy dose of dad-jokes.

## Core Competencies

- Backend development (.NET, C#, ASP.NET Core)
- System integration (REST, message queues, WCF)
- Cloud-native architecture (Azure, serverless, containers)
- Automation and CI/CD pipelines
- Clean code, SOLID principles, and developer experience

# Featured Projects

## Betsson
Senior Software Engineer 2021-10 – 2025-12

Contributed to the design, development, and maintenance of event-sourced, gamification-oriented applications featuring real-time Kafka message processing, RESTful APIs, and Blazor-based back-office tools.Optimized Kafka message processing, resulting in a nearly 1000% increase in throughput for one of the core applications.Developed Proofs of Concept for new systems and features to evaluate feasibility and drive innovation.Collaborated with Enterprise Architect and Engineering Manager to ensure architectural and regulatory compliance.Conducted and assessed technical interviews to support recruitment and team growth.

### Tech & Methods Used
Architecture: CQRS, Domain Driven Desing, Event Modeling, Event Sourcing, .Net Aspire, Microsoft Orleans
Automation: Docker, GitHub Actions, Octopus Deploy
Backend development: C#, .Net 5-9, .Net Aspire, Asp.Net Core, Microsoft Orleans, Blazor, SQL Server, PostgreSQL
System integration: Kafka, Rest APIs, WCF

## Film2Home/Plejmo
Fullstack Developer, DevOps 2014-11 – 2017-07

Development of the Video on Demand sites Film2Home and Plejmo.Designed Plejmo's REST API.Automated deployment thus eliminating the human factor and reducing deployment time from 1 hour to a couple of minutes.Increased performance by refactoring from a traditional n-tier architecture to a service bus architcure thus offloading the front end sites.

### Tech & Methods Used
Backend development: C#, .Net Framework, Asp.Net MVC, Asp.Net Web Api, NHibernate, SQL Server, EPiServer
Architecture: CQRS, Micro Services, Rest APIs
System integration: Azure Service Bus, Rest APIs, WCF
Frontend development: JavaScript, jQuery, KnockoutJS
Automation: Octopus Deploy

## Adlibris
Fullstack Developer 2021-02 – 2021-10

OpenID/Oauth service implemented with Identity Server 4 for the new Adlibris app under development.Account management API built with Asp.Net Core and .Net 5 hosted on Azure.Contentful CMS content modeling and integration.

### Tech & Methods Used
Backend development: C#, Asp.Net Core, Asp.Net MVC, SQL Server
Front end development: JavaScript, React, jQuery
System integration: Identity Server, Azure App Services
Automation: Octopus Deploy

## Open Payments
Software Engineer 2019-12 – 2020-06

Automated customer onboarding process using a React SPA with a .Net Core backend that integrated with Dynamics CRM and a variety of Azure resources.Improved test automation by making functional/integration tests require less manual intervention.Reduced deployment time thanks to improved test automation.

### Tech & Methods Used
Backend development: C#, Asp.Net Core
Frontend development: React, Redux, TypeScript
System integration: Azure functions
Automation: Azure DevOps

# Professional Context

## Languages
Swedish: Native
English: Fluent (IELTS overall score 8.5)

## Certifications
Microsoft Certified: Azure Developer Associate: Microsoft (2021-06-24)
MCSA: Web Applications - Certified 2016: Microsoft (2016-09-26)

## Education
Kulturama: Music (1992 - 1993)
Komvux Lidingö: Municipal adult education (1995 - 1997)

# Professional Experience

## Henrik Becker Consulting AB
IT Consultant 2017-07 – present

## Betsson
Senior Software Engineer 2023-12 – 2025-12

## MagineTV
Fullstack Developer 2015-09 – 2017-07

Continued development of the Video on Demand site Plejmo.Designed version 2 of Plejmo's Rest API.Continued improving the CI/CD processes I set up at Film2Home.

## Film2Home
Fullstack Developer 2014-11 – 2015-08

Development of the Video on Demand sites Film2Home and Plejmo.Designed version 1 of Plejmo's Rest API.Automated deployment thus eliminating the human factor and reducing deployment time from 1 hour to a couple of minutes.Increased performance by refactoring from a traditional n-tier architecture to a service bus architcure thus offloading the front end sites.

## Qbranch
IT Consultant 2014-04 – 2014-09

Resource consulting at Organizations in Stockholm CBD.Development of Qbranch Competence Manager used for finding the right consultant for an assignment.

## Wasa Kredit
Lead Developer 2012-03 – 2013-11

Reduced complexity through refactoring.Introduced living documentation in the form of executable specifications.Guided development teams towards a more agile approached software development with the product owner, functional analysts, testers and developers working closely together during the entire development cycle.

## Avega
IT Consultant 2008-01 – 2012-03

IT Consultant with assignments at Länsförsäkringar, Cale Access, Cash Guard, Tradera and Astando.

## Aftonbladet Tillväxtteknik 2 AB
Fullstack Developer 2007-12 – 2008-01

Fullstack Developer at hitta.se.

## Inverso
IT Consultant 2007-04 – 2007-12

Fullstack Developer at hitta.se.

## Qbranch
IT Consultant 2005-04 – 2007-04

Fullstack Developer at hitta.se.System Integration Consultant assignments at Sigtuna Council, ICA Banken, Taxi Stockholm.Was the single developer on an identity management project at Sigtuna Council that would become Microsoft's reference project for Microsoft Identity Integration Server.

## eWork

IT Consultant 2002-01 – 2005-03

Web development for Hewlett Packard Sweden.
