Introduction

Henrik started working with software development in 1999 during the "IT-boom" in Stockholm. Over the years, he has grown into a senior backend-focused consultant with deep expertise in system integration. He has worked with every major incarnation of .NET and ASP.NET from the early days of Web Forms to modern cloud native APIs. He focuses on backend development with automation, integration, and clean code built on SOLID principles.

Core Compentencies

- Backend development (.NET, C#, ASP.NET Core)
- System integration (REST, message queues, WCF)
- Cloud-native architecture (Azure, serverless, containers)
- Automation and CI/CD pipelines
- Clean code, SOLID principles, and developer experience

Featured Projects

Betsson Group

Senior Software Engineer   2021-10 – 2025-12

Contributed to the design, development, and maintenance of event-sourced, gamification-oriented applications featuring real-time Kafka message processing, RESTful APIs, and Blazor-based back-office tools. Optimized Kafka message processing, resulting in a nearly 1000% increase in throughput for one of the core applications. Developed Proofs of Concept for new systems and features to evaluate feasibility and drive innovation. Collaborated with Enterprise Architect and Engineering Manager to ensure architectural and regulatory compliance. Conducted and assessed technical interviews to support recruitment and team growth.

Tech & Methods Used

Architecture: CQRS, Domain Driven Desing, Event Modeling, Event Sourcing, .Net Aspire, Microsoft Orleans
Automation: Docker, GitHub Actions, Octopus Deploy
Backend development: C#, .Net 5-9, .Net Aspire, Asp.Net Core, Microsoft Orleans, Blazor, SQL Server, PostgreSQL
System integration: Kafka, Rest APIs, WCF

Film2Home/Plejmo

Fullstack Developer, DevOps   2014-11 – 2017-07

Development of the Video on Demand sites Film2Home and Plejmo. Designed Plejmo's REST API. Automated deployment thus eliminating the human factor and reducing deployment time from 1 hour to a couple of minutes. Increased performance by refactoring from a traditional n-tier architecture to a service bus architcure thus offloading the front end sites.

Tech & Methods Used

Backend development: C#, .Net Framework, Asp.Net MVC, Asp.Net Web Api, NHibernate, SQL Server, EPiServer
Architecture: CQRS, Micro Services, Rest APIs
System integration: Azure Service Bus, Rest APIs, WCF
Frontend development: JavaScript, jQuery, KnockoutJS
Automation: Octopus Deploy

Adlibris

Fullstack Developer   2021-02 – 2021-10

OpenID/Oauth service implemented with Identity Server 4 for the new Adlibris app under development. Account management API built with Asp.Net Core and .Net 5 hosted on Azure. Contentful CMS content modeling and integration.

Tech & Methods Used

Backend development: C#, Asp.Net Core, Asp.Net MVC, SQL Server
Front end development: JavaScript, React, jQuery
System integration: Identity Server, Azure App Services
Automation: Octopus Deploy

Open Payments

Software Engineer   2019-12 – 2020-06

Automated customer onboarding process using a React SPA with a .Net Core backend that integrated with Dynamics CRM and a variety of Azure resources. Improved test automation by making functional/integration tests require less manual intervention. Reduced deployment time thanks to improved test automation.

Tech & Methods Used

Backend development: C#, Asp.Net Core
Frontend development: React, Redux, TypeScript
System integration: Azure functions
Automation: Azure DevOps

Professional Context

Languages

– **Swedish:** Native
– **English:** Fluent (IELTS overall score 8.5)

Certifications

– **Microsoft Certified: Azure Developer Associate:** Microsoft (2021-06-24)
– **MCSA: Web Applications - Certified 2016:** Microsoft (2016-09-26)

Education

– **Komvux Lidingö:** Municipal adult education (1995 - 1997)
– **Kulturama:** Music (1992 - 1993)

Professional Experience

Henrik Becker Consulting AB

IT Consultant 2017-07 – present

Providing Fullstack .Net and DevOps expertise on a freelance basis in the Stockholm urban area.

Clients:
– Betsson Group
– Adlibris
– Norconsult Astando
– Open Payments
– Insplanet
– Svea Ekonomi

Betsson Group AB

Global online gaming & sportsbook enterprise
Senior Software Engineer 2023-12 – 2025-12

Magine TV AB

Cloud-based TV streaming platform, startup
